

**Topics of lectures on Biophysics for students
of Dental medicine
Academic year 2023/2024**

WEEK:	TOPIC:
1.	Biophysics and medicine Structure of matter
2.	Nuclear radiation and its application in medicine
3.	Nuclear magnetic resonance in medicine
4.	Positron emission tomography
5.	Ultrasound diagnostic methods
6.	Lasers in medicine
7.	X – ray radiation and its application in medicine
8.	Conventional radiography and CT
9.	Disperse systems and transport processes
10.	Membrane biophysics
11.	Bioelectricity
12.	Biophysics of cardiovascular system
13.	Biomechanics
14.	Physical principles of dental technologies

Associate Professor Ján Sabo, PhD.
Department of Medical and Clinical Biophysics
