

General Information			
Course name	Students' Research Project B	ECTS Credits	6
		Semester	winter
Aims			
It is the aim of this course to teach students to critically evaluate knowledge and apply this knowledge in a creative way in order to develop and demonstrate the ability of independent scientific work. The final work can serve as a foundation for the student's MA thesis.			
Contents			
After consultation with the tutor, the student will select a research topic. During the initial consultations, the student and the tutor will draft a research project and evaluate the possibility of its completion based on the available resources and literature. The student then works independently while regularly attending consultations in order to report their partial results and section of the final paper.			
Evaluation			
Evaluation of the progress of research. Elaboration of a research project on the basis of tutor's requirements. The paper is due in Week 13. Assessment (%): A100–93 B92–86 C85–78 D77–72 E71–65 FX64 and less.			
Bibliography			
literature relevant to the selected topic
