

<b>General Information</b>			
<b>Course name</b>	Current Trends in Psychology KPS/ STP/21	<b>ECTS Credits</b>	6
		<b>Semester</b>	summer
<b>Aims</b>			
<p>Students will obtain an overview of information about current direction of research in selected areas of basic and applied psychological disciplines (cognitive psychology, social psychology, personality psychology, counseling, clinical psychology), which primarily leads to knowledge of individual experience and behavior in an interpersonal context from the perspective of cognitive neuroscience. The part of the learning process is to develop analytical-synthesizing thinking for the needs of deeper understanding and application of acquired knowledge</p>			
<b>Contents</b>			
<p>1. Social mind (cognition, emotions, and personality in the context of cognitive neurosciences). 2. Consciousness and self-awareness. 3. Unconscious: automatic versus intentional processes. 4. Social perception. 5. Rational and intuitive decision making. 6. Personality disorders. 7. Trauma and post-traumatic growth. 8. Burnout and compassion fatigue. 9. Attachment and mentalization.</p>			
<b>Evaluation</b>			
<p>Course completion conditions: 40% assessment during semester, 60% exam Assessment during semester: 4 assignments (10 points for each assignment) Exam: written, in the form of a test (30 questions) A final evaluation is a sum of assessment during semester and exam. More detailed instructions are published on the electronic bulletin board of the course</p>
