MEDICAL DATABASES IN ONE PLACE
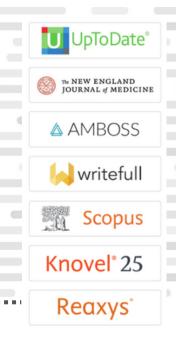

What is OVID DISCOVERY SYSTEM?

Ovid Discovery is a search engine designed **for biomedicine, healthcare, and pharmacy**. It enables **advanced medical searches** (including MeSH terms) and supports multiple languages.

What it offers:

- Access to the Lippincott Williams & Wilkins (LWW) e-journal collection.
- Single sign-on to all professional resources for physicians and researchers.
- Artificial intelligence for more accurate and relevant results.

Where can you find it?

On the university website (see QR code on the flyer)

Directly on our website
