

Subject: MEDICAL CHEMISTRY

Study year, term: I., Winter (WT)

Study programme: General Medicine

I. For successful completion of practical exercises (prerequisite for enrolling in a subsequent subject) is required:

- **To participate in all practical exercises** and the methodical mastering of all practical exercises.
 - preliminary continuous control is done on exercises from the topic determined for the given week (small tests or oral examination within seminars),
 - the questions in the small tests are from the topic lectured in the previous week and the exercise topic for the given week.
- To get **at least 60%** on average from **the overall evaluation of the student's work** in practical exercises, which includes evaluations of the small tests, protocols, and results of practical tasks.
- In the case of an excused absence, preparation of a seminar paper in the form of a presentation (pptx or poster, 10-15 minutes) or in written form (range of 4-6 pages, used literature, Times New Roman 12, spacing 1.5) on a specified topic.

II. For successful completion of Medical Chemistry (a prerequisite for enrolling in a subsequent subject) is required:

- Successful completion of practical exercises (see point I).
- A grade of **at least 60% on average**, which is calculated from the **two revision written tests** (15 open questions) determined for the semester (see *Lectures and practical exercises*) and the evaluation of the **student's work in practical exercises**, can be considered to pass the exam with a result corresponding to the scale below;
 - If the student does not get the required grade or does not agree with the average grade, he/she will take a written exam.
- **The written exam** consists of 30 open questions in the scope of the subject given by the curriculum:
 - The student has 60 minutes to work out the questions,
 - After completion, the written answers are evaluated by the teachers of the Department,
 - Based on the quality of the answer, the student gets 0-4 points for answering each question (the maximum number of points is 120),
 - Examining teachers perform the final evaluation by adding the bonuses based on the results of practical exercises **to the tests with a score of 72 or more** as follows:
 - for average percentage of 90 to 100 %: **5 points**
 - for average percentage of 80 to 89 %: **3 points**
 - The final evaluation of the exam is according to the following scale:

<i>The final achieved points</i>	<i>%</i>	<i>Mark</i>	
120 – 109	100 – 91	1	<i>excellent</i> A
108 – 100	90 – 83	1-	<i>very good</i> B
99 – 90	82 – 75	2	<i>good</i> C
89 – 80	74 – 67	2-	<i>satisfactory</i> D
79 – 72	66 – 60	3	<i>sufficient</i> E
< 72	< 60	4	<i>failed</i> Fx
