Assessment of the student's learning achievements in Biology 1 and Medical and Human Biology 1

Continuous evaluation of study during teaching period of winter semester will be realized in form of two tests. All students will take the particular test together in the beginning of the lecture in respective week.

Conditions for course completion:

For the successful completion of the subject, as "prerequisite for registration" in the follow-up subject Biology 2, it is necessary:

- 100% active participation in all practical lessons

For successful completion of the subject, as "prerequisite for completion of the subject" Biology 2, it is necessary:

- 100% active participation in all practical lessons
- obtaining at least 60% from each test

If a student cannot take part in the test at the given date for serious reasons (especially health problems), he/she must apologize to the Head of the department or the teaching assistant in advance, but no later than 7 days after the scheduled date of the test. If he/she does not do it and does not submit serious reasons he/she is given 0 % for this test. Students, who apologize, will be given one alternative term for each apologized test. Alternative term for properly apologized students who could not attend the regular term of the test will be scheduled to the last week of the teaching period of winter semester.

If a student will not obtain 60 % from the test in regular term he/she can re-take the corresponding test in the examination period of the winter semester. The dates of these re-takes will be announced in the last week of the teaching period of winter semester. Two retakes in total will be available in winter semester. If a student cannot take part in the retake test at the given date for serious reasons he/she should proceed and apologize as described in previous paragraph.

The assessment of "Pass A through E" (*Study Rules and Regulations, Pavol Jozef Šafárik University in Košice, Faculty of Medicine, Article 13, par. 4b*)

- 91 to 100 % award "Pass - A - Excellent",
- 84 to 90 % award "Pass - B - Very good",
- 75 to 83 % award "Pass - C - Good",
- 68 to 74 % award "Pass - D - Satisfactory",
- 60 to 67 % award "Pass - E - Sufficient".

All practical lessons (100 %) are obligatory for the students. It is necessary to have the textbook and own exercise book. Student is required to prepare for practical lessons (read the theory in the textbook) and write protocol on each studied topic into exercise book.

Non-participation in practical exercises must be properly excused with the teacher, who will determine a substitution/compensation in the corresponding form. The student can be excused from the practical exercises three times at most during the semester (*Study Rules of Procedure P. J. Šafárik University in Košice the Faculty of Medicine*).

assoc. prof. RNDr. Peter Solár, PhD.
The Head of the Department of Medical Biology
