

REGISTRATION OF COURSES FOR NEWLY ADMITTED STUDENTS

A) STEPS for new students who are enrolled only in the 1st year of General/Dental Medicine (students who do not ask for recognition of courses from previous study)

If you are accepted into the 1st year of General/Dental Medicine (GM/DM), you are obliged to register courses electronically for the academic year 2024/2025 via Academic Information System (hereinafter "AIS").

Study Department will create an electronic registration form of the academic year 2024/2025 in AIS and you are obliged to add courses you wish to take during both the winter and the summer semester.

Manual for course registration in AIS is available [here](#) (start with step 6).

During the electronic registration in AIS you create your own **study plan**.

Curriculum for the academic year 2024/2025 is available here: [General Medicine/Dental Medicine](#).

You are obliged to register subjects for a minimum of 40 credits, maximum is 90 credits. You are recommended to register all compulsory courses in the amount of 60 credits according to the 1st-year curriculum for GM/DM.

Students of DM – do not register Medical Chemistry nor Medical Biochemistry 1, register only Chemistry of Dental Materials.

Please print out and sign your Study plan and submit it on the day of your personal registration along with the completed [Registration form 2024-2025](#).

You are not obliged to fill in Course registration form.

You can find the manual how to print out the Study plan [here](#).

Advice and assistance related to the technical problems connected with the electronic registration is provided at LF-ais@upjs.sk.

B) STEPS for transfer and reaccepted students (students who ask for recognition of courses from previous study and are accepted into the 1st or higher evidence years of General/Dental Medicine)

If you ask for recognition of courses passed within your previous study and you are accepted into the 1st, 2nd, 3rd, 4th or 5th year of GM/DM, you are obliged to fill in [Course registration form 2024-2025](#) with courses you would like to take during both the winter and the summer semester.

You are obliged to register subjects for a minimum of 40 credits (credits for recognized subjects are NOT included) including compulsory elective courses according to the curriculum. You are allowed to register a maximum of 90 credits.

Please submit the filled and printed Course registration form on the day of your personal registration along with the filled [Registration form 2024-2025](#). Courses will be added into AIS manually by the Study Department.

Curriculum for the academic year 2024/2025 is available here: [General Medicine/Dental Medicine](#).
