

Requirements for completion

Department of Histology and Embryology

Subject: Histology and Embryology 2

Year of study, Term: 1.y., ST

Study programme: Dental Medicine

1. For successful completion of the practical exercises is required:

- a) Student has to attend **all practical lessons** (100%).
- b) In case of excused **absence from practical lessons (maximally 3)**, a student has to study missing slides and draw them to the practical textbook individually (self-study) and is obliged to respect and follow the instructions of his/her teacher.
- c) During semester, student has to participate in **3 compulsory control written tests** from strictly determined topics and gain the **total average of results minimally 60 % from all three compulsory tests**. If the student passes compulsory control tests successfully (average from all three tests minimally 60%), the student is allowed to continue to the semestral slide test. The student is entitled for **one retake term for each compulsory control written test** in exact term. In the case of writing retake control test, the last test (not the best written one) is counted to total average.

1. compulsory control test: Skin + Cardiovascular system + Lymphatic system (regular term in the **5.W** on practical lesson; retake term in **6.W** – exact date and time is determined by the teacher)

2. compulsory control test: Digestive system (regular term in the **8.W** on practical lesson; retake term in **9.W** – exact date and time is determined by the teacher)

3. compulsory control test: Respiratory system + Placenta + Endocrine system (regular term in the **11.W** on practical lesson; retake term in **12.W** – exact date and time is determined by the teacher)

Each test is composed of 20 different questions (abcd questions - ONLY one correct answer; open questions; pictures: schematic drawings/microphotographs/own drawings based on the lectures and practical lessons).

If the student **does not gain the average minimally 60% from all three compulsory control tests**, the student is evaluated **FX – failed** (Study Rules of Procedure P.J. Šafárik University, the Faculty of Medicine, part II., article 13: 1c and 6.).

- d) In case of failure to attain these limits (point c), semestral slide test and final exam is not permitted and the student is graded Fx (failed) at the end of semester (Study Rules of Procedure P.J. Šafárik University, the Faculty of Medicine, part II., article 13: 1c and 6.)
- e) Student has to pass **Semestral slide test performed in the 14th week on the practical lesson**, which consists of **2 histological slides** from the summer semester. For successful completion, student has to gain **minimally 60%**.

Requirements for completion

Department of Histology and Embryology

f) Student is entitled for **two retake terms for the Semestral slide test** during the first and second week of the examination period (exact date and time is determined by the teacher). The student must pass the last retake term of semestral slide test before the regular term of the final written test.

g) The limits for the registration for the final exam are:

Attendance on practical lessons - 100% (max. 3 excused absences)

Compulsory control written tests - average from all tests minimally 60%

Semestral slide test - minimally 60%

h) **Attention:** If the student does not participate on the the regular term of compulsory control written tests and/or semestral slide test for any reason (personal, family, health), student will not have an alternative date, but will take the exam on the retake term. If the student does not take part in retake term for any reason, the student is not entitled to have a replacement date.

*** Bonus credit for final written test for students according to the study results:**

Student, who gains the average from all compulsory control tests and semestral slide test (in regular term):

91% and more = gains 30 bonus points;

84% – 90% = gains 20 bonus points;

75% – 83% = gains 10 bonus points.

*** Bonus credit is added to the result of the final written test.**

2. For successful acquirement of the credits from subject is necessary to pass:

Final exam, which consists of:

A. Final written test

The student must gain **minimally 60%** from the test.

(*special award – bonus credit for final written test)

The total evaluation of the final exam (graded A-E) includes outcomes of the semestral slide test and final written test.
