Assessment of the student's learning achievements in Medical Biology

1. Requirements for successful completion of the practical exercises:

- **Mandatory 100% participation** in practical exercises; theoretical and practical mastery of tasks.
- It is mandatory to have the course textbook in printed or electronic form during the practicals and to use it to prepare the laboratory reports. Mobile phones must not be used during practical exercises unless explicitly permitted by the teacher.
- Non-participation in practical exercises must be properly excused with the teacher, who will determine a substitution/compensation in the corresponding form.
- A student can have a maximum of **three excused exercises** during the semester.

2. Conditions for course completion: (as prerequisite for the completion of the follow-up subject)

- Successful completion of the practical exercises (see paragraph 1).
- Obtaining **at least 60% from each of the two mandatory tests** (topics according to the content of course lectures and exercises).
 - A student who cannot take part in the writing of the tests in regular terms but **properly excuses his/her absence** (a medical certificate from a doctor **no later than 3 calendar days** after the date of writing the tests) will be given one alternative date for all excused tests during the last week of the teaching period of the semester. This term counts as a regular term.
 - A student **who fails to obtain 60 % from each test** in the regular term or a student **who fails to properly excuse his absence from the test** in the regular term can retake the corresponding test in the examination period of the semester.
 - The dates of the **two retakes** will be announced in the last week of the teaching period of the semester. An absence from the test for health reasons must be properly justified **no later than three calendar days** after the test date.
 - A student who fails to properly excuse his absence from the test in the regular terms or retakes will be given 0%.
