Assessment of the student's learning achievements in Medical and Human Biology 2

Assessment of the student's learning achievements is carried out as a combination of:

- continuous monitoring of the study during the teaching period of the semester (40%)
- and the oral examination during the examination period of the semester (60%).

1. Continuous monitoring of the study during the teaching part of the summer semester will be realized in the form of **two written** tests.

Mandatory 100% participation in practical exercises is the part of the assessment.

- It is mandatory to have the course textbook in printed or electronic form during the practicals and to use it to prepare the laboratory reports. Mobile phones must not be used during practical exercises unless explicitly permitted by the teacher.
- Non-participation in practical exercises must be properly excused with the teacher, who will determine a substitution/compensation in the corresponding form.
- A student can have a **maximum of three excused exercises** during the semester.

2. Conditions for subject completion:

- Successful completion of the practical exercises (see paragraph 1).
- Achievement of a **minimum overall average of 50% from both tests combined** – prerequisite to register for the oral exam.
- Successful completion of the oral exam.
- A student who cannot take part in the writing of the tests in regular term but properly excuses his/her absence (medical certificate from a doctor **no later than 3 calendar days from the date of writing the tests**) has one alternative date set for all excused tests during the last week of the teaching period of the semester. This term is counted as a regular term.
- A student who fails to properly excuse his absence from the test will be given 0%.
- **If the combined average of tests is below 50%**, the student **may once retake** the tests in which they scored less than 50%. This retake will be held during the final week of the semester during the scheduled lecture time.

Procedure for the final evaluation of the study results

Continuous assessment during the summer semester: 0 – 40 points

Oral examination: A – 60 points B – 52 points C – 44 points
D – 36 points E – 28 points Fx – 0 points

Final evaluation grade: A – > 90 - 100 points D – > 67 - 74 points
(total of all acquired points: B – > 83 - 90 points E – 60 - 67 points
continuous assessment + C – > 74 - 83 points Fx – < 60 points
oral examination)
