

Accredited fields of study and study programs at UPJŠ in Košice, FM

Field of study: General Medicine

Study program: *Clinical Biochemistry*

Study program commission (SPC) for SP *Clinical Biochemistry*:

In accordance with [the Study Regulations of Doctoral Studies at UPJŠ](#) in Košice, approves the rules for the admission procedure and the dissertation examination, the principles for credit assessment, the conditions for accepting the dissertation for defence, proposes the Individual Study Plan (ISP) of individual students, proposes supervisors and consultants, proposes passing the examination commissions for the entrance and state final examinations and resolves on the annual evaluation of the ISP, to which the doctoral scholarship is tied in the full-time form of study.

The SPC is composed of experts working in the study program or in related study programs who are employees of UPJŠ in Košice, the Faculty of Medicine, the Faculty of Science, other universities or faculties, SAS workplaces, and other scientific research organizations. Examination commissions (e.g., for entrance and state final dissertation examinations, dissertation defences) are composed of at least five members of the SPC:

- of which at least one third is not a member of the academic community of the UPJŠ FM,
- at least one person is not a member of the UPJŠ academic community,
- and at least two-thirds of the members are associate professors and professors (DrSc.).
