The conference was organized by SKSaPA and there was an interesting range of lectures, to which actively contributed our colleague from the Department of Nursing Care PhDr. Silvia Danková, PhD.

Professional Events

Department of Nursing Care

2023 Košice, Slovak Republic

On October 4 and 5, 2023 we welcomed colleagues from the University of Rzeszów, University of Medical Sciences, Institute of Health Sciences in Poland at the Centre for Simulation and Virtual Medicine. The aim of the meeting was to exchange professional experience related to the use of medical simulation and modern methods of treatment of chronic wounds. Dr. hab Dariusz Bazaliński, dr. hab. Paweł Więch and dr. Joana Przybek- Mita prepared lectures and a workshop on "Fundamentals of Chronic Wound Assessment and Treatment" for our 2nd year nursing students. The content of the lectures included procedures for the assessment, prevention and treatment of selected chronic wounds (shin ulcers, diabetic foot and decubitus ulcers). The workshops featured demonstrations of Lucilia Sericata larval therapy, surgical debridement, application of negative pressure therapy management and ABI measurement along with portable ultrasound examination. This activity was a great success with the students who expressed absolute satisfaction and request for similar activities in future. The two-day program was part of more than a year-long bilateral cooperation between the Department of Nursing Care , Faculty of Medicine, UPJŠ in Košice and the Institute of Health Sciences, University of Rzeszów, Rzeszów, Poland. The cooperation was established within the ERASMUS+ project.

The European Wound Management Association (EWMA) board meeting was held on 8-9 October 2023. A member of the EWMA Council, the Education Committee and the Committee for Cooperating Organizations is our Assistant Professor at the Department of Nursing, Faculty of Medicine, P. J. Šafárik University in Košice, Beáta Grešš Halász, PhD., MPH, who actively participated in the series of meetings. The EWMA Board discussed the current and planned activities of the Association.

The main topics were education and practice in EU countries in the context of current trends and needs, support of the member organizations it represents, and promotion of prevention and treatment not only in Europe. Specifically, these were simulation in education, promoting the use of artificial intelligence in practice, promoting and selecting interesting projects to be supported by EWMA, the use of EWMA's practice guidance documents and curricula for education, the use of EWMA's e-learning materials, and a plan for the production of new documents on current topics for practice. 2023 Milan, Italy

The European Wound Management Association (EWMA) organized a conference that took place from 3 to 5 May 2023 in Milan, Italy. The meeting was attended by 5,006 registered participants from 96 countries.

Our university was represented by PhDr. Beáta Grešš Halász, PhD, MPH as one of the members of the EWMA Council. Important outcomes of this international event are mainly the presentation of new methods of wound prevention and treatment in the context of multidisciplinary, as well as networking, education and exchange of experience of experts from all over the world.

The main role of the EWMA is to develop clinical guidelines and to promote wound management education in different fields. The annual EWMA conferences are highly regarded from a scientific and professional point of view, and are an important opportunity to learn the most up-to-date news on wound issues.
