

Requirements for completion

Department of Medical and Clinical Biochemistry

Subject: **MEDICAL BIOCHEMISTRY 2**

Study year: **II., WS**

Study programme: **Dental Medicine**

1. The conditions for successful completion of practical exercises

- To participate at all practical exercises and theoretical and practical performance of all exercises.
- To get at least 60 % of total score from evaluation of student knowledge by the teacher/supervisor. Monitoring is done at every practice from topics related to the exercise of the week – small tests or oral examination.
- In the case of excused absence practice, student will prepare seminar work and present it in PowerPoint (10 - 15 min.). Supervisor will choose appropriate topic.
- To get at least 60 % (average) from **3 revision tests** (big tests).
- In the case of missed big test (maximum 1) or failure (less than 60 %) from the big tests, the test may be repeated in the last week of the semester (questions from whole semester).
- In the case of the failure from the test in the last week of the semester, the head of the department will provide a date (only one) for the last repetition test.
- Successful completion of „colloquium“ – an individual performance of selected practical exercises in the last week of semester

2. The conditions for successful completion of the exam

- To gain the credit from practical exercises (paragraph 1 above).
- Passing the written and oral exam.
- **Written part** of the exam:
 - the final test composed of 25 questions from the curriculum of Medical Biochemistry,
 - the tests are written in the assembly hall for 50 min.,
 - the tests are evaluated by teachers from the department,
 - each student receives for his/her answer from 0 (incorrect or no answer) to 4 points (fully correct answer) per question and maximal number of points (percentage) is 100 (%) for whole test,
 - the result over 90 % on average from all of big tests written during winter semester as well as all of big tests of previous semester may substitute a written part of the exam,
 - students must gain $\geq 60\%$ of written test to continue to the oral exam,
 - the final mark for the written test is determined by the scale as follows:

<i>The final achieved points (%)</i>		<i>Mark</i>	
100 – 92	1	<i>excellent</i>	A
91 - 85	1-	<i>very good</i>	B
84 - 75	2	<i>good</i>	C
74 - 68	2-	<i>satisfactory</i>	D
67 - 60	3	<i>sufficient</i>	E
< 60	4	<i>fail</i>	Fx

- **Oral part** of the exam:
 - consists of 3 randomly chosen questions from the pool of questions that each student may find on website:
https://www.upjs.sk/public/media/9648/Questions_oral%20exam_DM_Med%20Biochemistry_18.pdf
 - The final evaluation shall consider the outcome of the written part, the oral answer and the results achieved in the practical exercises.
