Requirements for completion

Department of Medical and Clinical Biochemistry

Subject: MEDICAL CHEMISTRY
Study year: I., WS
Study programme: General Medicine

I. The conditions for successful completion of practical exercises

- To participate in all practical exercises and the methodical mastering of all practical exercises.
- Get at least 60 % on average of the overall assessment of the ongoing review of the theoretical training to practical exercises (small tests). Monitoring is done at every practice based on the topic of previous week lecture and from topics related to the exercise of the current week.
- Get at least 60 % on average from 3 revision tests per semester (see the Syllabus)
- In the case of the missed big test (maximum 1) or failure (less than 60 % on average) from the big tests, the test may be repeated in the last week of the semester (repetition in the scope of all revision tests).
- If the student fails practical exercises and does not receive 60 % from the test realized in the last week of the semester, a test date for meeting the required conditions may be set during the examination period once of the winter semester.

II. The conditions for successful completion of the exam

- Successful completion of practical exercises (see point I.).
- Successful passing a written exam (at least 60 %). The written exam consists of a test consisting of 30 questions within the topics of the curriculum:
  - the tests are written in the assembly hall for 60 min.,
  - the tests are evaluated by teachers of the department,
  - depending on the quality of the answer, the students will receive 0 (incorrect or no answer) to 4 points (fully correct answer) per question, the maximum score for the whole test is 120,
  - examining teachers perform the final evaluation by adding the bonuses based on the results of practical exercises to the test with the minimum score 72 points (60 %) as follows:
    a) for an average percentage of 90 to 100 % of the revision tests: 5 points,
    b) for an average percentage of 80 to 89 % of the revision tests: 3 points.
- Examiners determine the result according to a point scale as follows:
